

Alcohol Misuse Screening and Behavioral Counseling Interventions for members 18 and older.

Community Health Group covers Alcohol Misuse Screenings at your primary care providers office for members 18 years of age and older. Members should be screened 1 time per year and more if needed.

If a member is screened positive for Alcohol Misuse, behavioral health counseling interventions are provided at the primary care provider's office.

If a Community Health Group member is determined to need further evaluation and treatment for Alcohol use, a referral to the San Diego Drug Medi-Cal Program will be provided.

All Community Health Group members can self-refer to the San Diego Drug Medi-Cal Program by calling the San Diego County Access & Crisis Line at (888) 724-7240.

Additionally, Community Health Group's Behavioral Health Services Department is available to our members and providers to facilitate access to substance use disorder treatment. You can reach our Behavioral Health Services Department by calling (800) 404-3332.
